

Psychological Service

under the Centre for Disabled Students (CSD) at UNEC

At initial period, activities of Psychological Service under CSD should be carried out in two directions:

- Psychological awareness (to spread knowledge through students about main actual problems)
- Psychological consultation (to use advice of other specialist - pedagogues, sociologists, lawyers, doctors and others in solving problems)

Psychologist of CSD- doc. Valida Alieva (ph.d in Psychology)

- To help students with disabilities in gaining confidence, self-assessment;
- To help students with disabilities in adaptation to university environment;
- To enable students with disabilities in creating relations with other students and instructors (teachers);
- To strengthen awareness regarding respecting and caring students with disabilities in society;
- To create psychological environment for students with disabilities in cooperating with professor-teacher staff;
- To help students with disabilities in gaining self-protect ability and solving problems during studying period;
- To create psychological condition in discovering ability, talent and intellect of students with disabilities;
- To help students with disabilities in solving psychological problems and in gaining self-protection abilities during studying period.
